JARED CAZEL

Senior Full-Stack Software Engineer | TypeScript, React, Next.js, AI
New York City Metro | jjcazel@gmail.com | LinkedIn | github.com/jjcazel | jaredcazel.com

SUMMARY

Senior full-stack software engineer with 6+ years of experience building modern web applications using React, TypeScript, Next.js, and Node.js. At NewsBank, I helped modernize legacy platforms, develop shared architecture adopted across 3–4 engineering teams, and improve developer workflows through reusable packages and CI/CD. More recently, served as a founding engineer at SightlineOS, owning full-stack architecture and building AI-powered product features in collaboration with engineering and product leadership.

SKILLS

- **Languages**: TypeScript/JavaScript, HTML/CSS/Sass, Python
- **Web Development**: React, Next.js, Node.js, TanStack Query, RESTful APIs, Jest, Material UI, JWT, NPM, JSON, GraphQL, Tailwind, Full-Stack Application Development
- **Cloud & Backend**: AWS (S3, API Gateway, Lambda, Amplify, CloudWatch, CloudFront), SQL, PostgreSQL, MongoDB, Express.js, Ruby on Rails
- **Tools & Methodologies**: Git, Prisma, Vercel, Open-source LLMs (Ollama), LangChain, Figma, Playwright, Storybook, Greenfield Software Development, ChatGPT, Claude, AI-Assisted Development Tools
- **Security**: Application Security

EXPERIENCE

SightlineOS **Apr 2026 - Aug 2026**
Founding Software Engineer *NYC*
- Led greenfield full-stack development for a $3M pre-seed restaurant supply-chain startup, owning end-to-end engineering from technical design through implementation for 8+ product features used in customer workflows and prospect demos.
- Designed and built the company's first AI-powered forecasting product experiences, translating model outputs and supply-chain data into actionable purchasing and inventory recommendations for customer decision-making.
- Developed customer-facing recommendation workflows with Next.js, React, and TanStack Query, applying caching and query invalidation to keep supply-chain data responsive and up to date.
- Architected Prisma data models and application workflows for distributor purchase orders, demand forecasts, inventory positions, credit memos, and operational metrics, enabling a unified supply-chain planning experience.

NewsBank **May 2024 - Apr 2026**
Senior Software Engineer *Remote*
- Engineered GitLab CI/CD pipelines for Next.js and TypeScript monorepos, automating linting, testing, and Docker-based builds while optimizing dependency caching and job execution to cut minutes from build times.
- Built a secure, database-free session management system with Next.js middleware and the jose package, applying application security practices to encrypt JWTs in HTTP-only cookies for server-side user authentication.
- Helped migrate legacy Drupal applications into a modern Next.js monorepo, designing reusable internal packages and shared application patterns across teams.
- Established an internal NPM package workflow backed by a JFrog package registry, improving code reuse and consistency across teams.
- Created ADRs and sequence diagrams with senior architects to clarify technical decisions and make implementation work easier to scope.

Allera **Jul 2024 - Jan 2025**
Software Engineer *Remote*
- Developed fine-grained RBAC with GraphQL and AWS Cognito for food-safety workflows and administrative access, giving teams more precise control over user permissions.
- Built supplier template and audit-log systems in TypeScript and React to streamline setup and improve workflow visibility.
- Implemented bulk editing, copying, and PDF export with custom React hooks to reduce repetitive work in QA workflows.

TMX **Jan 2020 - Nov 2023**
Software Engineer *New York*
- Led development of an MVP newsroom dashboard that aggregated live story data for an early-stage media platform.
- Built referral onboarding and authentication improvements supporting the platform's growing user base.
- Built a custom Redux-based uploader with AWS Cognito authentication that simplified user-generated content submissions.

EDUCATION

The Catholic University of America **2013**
Master of Music

The Boston Conservatory **2007**
Bachelor of Music
